

Are you ready for Wildfire Season?

Every year, wildfires burn across the U.S., and more and more people are living where wildfires are a real risk. But by working together, residents can make their own property — and their neighborhood — much safer from wildfire.

Creating your Defensible Space

Action steps for around your home:

- **CLEAR** leaves and other vegetative debris from roofs, gutters, porches and decks. This helps prevent embers from igniting your home.
- **REMOVE** dead vegetation and other items from under your deck or porch, and within 10 feet of the house.
- **SCREEN** in areas below patios and decks with wire mesh to prevent debris and combustible materials from accumulating.
- **REMOVE** flammable materials (wood piles, propane tanks) within 30 feet of your home's foundation and outbuildings, including garages and sheds. If it can catch fire, don't let it touch your house, deck or porch.
- **PRUNE** trees so the lowest branches are 6 to 10 feet from the ground. Wildfire can spread to tree tops.
- **KEEP** your lawn maintained. If it is brown, cut it down to reduce fire intensity. Dry grass and shrubs are fuel for wildfire.
- **DISPOSE** of debris and lawn cuttings quickly to reduce fuel for fire.
- **INSPECT** shingles or roof tiles. Replace or repair the shingles that are loose or missing to prevent ember penetration.
- **COVER** exterior attic vents with metal wire mesh no larger than 1/8 inch to prevent sparks from entering the home.
- **ENCLOSE** eaves and screen soffit vents using 1/8 mesh metal screening to prevent ember entry.

The more actions a community takes, the more fire adapted it becomes. Learn how you can make a difference in your community. Visit www.fireadapted.org and www.firewise.org for more information.

May

Home Fire Sprinklers

Over 80% of fire deaths occur in the home. Home fire sprinklers can save lives. They respond quickly and effectively to fire, often extinguishing the fire before the fire department arrives. Only the sprinkler closest to the fire will activate, spraying water on the fire.
