

Fire Prevention Week 2022

Greetings schools and staff,

Fire Prevention Week is now here, and we have put together an easy-to-follow Fire Safety Tool Kit which offers safety lessons and activities that you may discuss and work on with your students inside the classrooms. In addition to our Fire Safety Tool Kit, we put together a video we'd like you to share with your students. Our fire safety video highlights this year's national theme of "Fire won't wait. Plan your escape." and features our firefighters teaching fire safety from our very own Station 32 in Hillsborough. This video may be found on our Central County Fire Department's website or by following this link [teacher's toolkit resources](#).

Thank you all for what you do and for promoting a fire safe environment for our students.

Sincerely,

Patrick Bignardi
Fire Prevention Specialist
